

WOL-122 Contracts

Description:

An ideal guide for the paralegal student, WOL-122 Contracts, presents the law of contracts in an understandable and organized manner. The textbook's effective "road map" approach to contracts helps students learn about contract formation, contracts the courts will not enforce, the plaintiff's allegation of breach, the defendant's response to the plaintiff's allegation, and the plaintiff's remedies for breach of contract. In this edition, the author separately addresses the impact of Article 2 of the UCC (sale of goods), federal preemption, and the UN Convention on Contracts for the International Sale of Goods (CISG) on common law contract theory. Cutting through excess verbiage and outdated doctrine, the book develops each rule of law by presenting theory, illustrating theory with an example, and providing a "problem" to give you hands-on practice.

Textbook: Essentials of Contract Law, 2nd Ed. - Frey - ISBN: 9781305566477

Course objectives:

Throughout the course, you will meet the following goals:

- Understand the choices that the parties should consider during contract negotiations.
- Explain the traditional common law approach to offer and acceptance.
- Describe the difference between separate contract formation and contract enforceability.
- Explain the three categories of allegations.
- Explain the four categories of defendant responses.
- Understand the plaintiff's common law remedies for the defendant's breach of contract.
